

In 1949, Ron Losee, a young Yale Medical School graduate, headed west with his wife and small daughter to begin the practice of medicine. They settled in Ennis, Montana, in a log cabin that also became their office and lab. Patients made themselves at home in the living room. One small bag held all their medical equipment. It was a proud moment when a patient first called Losee Doc. His fee on that occasion was three dollars. In robust, freewheeling prose, Doc Losee - now internationally known for his work in orthopedic surgery - shares nearly half a century of dedicated doctoring, evoking the rich flavor of Montana and the dramatic dilemmas that never cease to haunt the country doctor. Exhilarating and entertaining, Doc is a moving reminder of what people - doctors and patients--can be and do. Its the perfect cure for what ails us.
