

When Pam Johnson founded the Secret Society of Happy People, she never imagined the controversies that would follow. From taking on Ann Landers over the issue of holiday newsletters, through worldwide press coverage, a spirited debate on Politically Incorrect, and creating a dilemma for governors when she asked for proclamations for National Admit You're Happy Day, she chronicles the amusing and often surprisingly controversial adventures of the Secret Society of Happy People. She also identifies why people have become more comfortable complaining and whining or being chronically cranky, than they are expressing happiness. Finally, she presents a whole spectrum of happiness brought to life by her insightful stories as well as thoughtful and witty pieces by other writers.
