

Welcome to the proceedings of ECOOP 2009! Thanks to the local organizers for working hard on arranging the conference with the hard work they put in, it was a great success. Thanks to Sophia Drossopoulou for her dedicated work as PC Chair in assembling a scientific program including forward-looking keynotes, and for her efforts to reduce the environmental impact of the PC meeting by replacing a physical meeting with a virtual meeting. I would also like to thank James Noble for taking the time and effort to write up last year's banquet speech so that it could be included in this year's proceedings. One of the strong features of ECOOP is the two days of workshops preceding the main conference that allows intense interaction between participants. Thanks to all workshop organizers. Last year's successful summer school tutorials were followed up this year with seven interesting tutorials. Thanks to the organizers and speakers. This year's Dahl-Nygaard award honored yet another pioneer in the field, namely, David Ungar for his contributions including Self. I appreciate his efforts in providing us with an excellent award talk. The world is changing and so is ECOOP. Please contemplate my short note on the following pages entitled On Future Trends for ECOOP.
