

There have been guidebooks to military sites before, but no other book has covered the War of 1812 in its entirety. This well-illustrated updated edition covers more than 400 historic sites of the War of 1812, both well-known and obscure, in both Canada and the United States. The author has used old pen and ink drawings from the last century to give a then and now feel to the book. Curious to know what is at the site of the Battle of Queenston Heights? Besides giving readers a detailed history of the events that occurred at the sites, the author describes what they have to offer visitors today, be it a historical plaque, historic house, or major interpretive centre. This book is a handy tool for both travellers and historians. It remains the only book on the market offering a comprehensive guide to nearly all of the sites in our last war with the United States.

Macroeconomics Plus MyEconLab with Pearson eText -- Access Card Package (7th Edition), The In Between Time: A practical guide to divorce American style and the newly single Father, A House Full of Fortunes!
