

A few years ago, Jack Brown jotted down a list of fatherly advice for his son as Adam left home to begin a new life as a college freshman. That list became Lifes Little Instruction Book, the phenomenal book that has sold more than five million copies in less than two years and has been translated into 13 languages. But within a few days of presenting Adam with Lifes Little Instruction Book, says Brown, I began to think of many other entries I wished I had included. How could I have forgotten to mention, Rake a big pile of leaves every Fall and jump in it with someone you love, or Be gentle with the earth, or something as practical as Get a Flu Shot and Never drive while holding a hot cup of coffee between your knees? Obviously, there was only one thing to do: start another list. It took Jack Brown more than two years to complete the list, and Adam says Its more useful than the first one. Since its debut in 1991, Lifes Little Instruction Book has revolutionized the publishing industry. This little plaid book, which has been embraced the world over, has sold more than nine million copies, spent more than two years atop the New York Times bestseller list, and has been translated into 33 languages. Though originally written as a gift from a father to a son, its simple message has been enjoyed by men and women of all ages around the world.
