

Motorcycle Blow-by: A Shower of Sparks is the new abridged version of my 2013 work Motorcycle Crankcase Ventilation. These are the first books published on this subject: one which affects riders of vintage, classic and modern motorcycles at some time. The abridged 330 page edition is published for the rider who wants a simple guide to fixing oil leaks and other signs of motorcycle crankcase ventilation problems, without the history, research and technical development. This abridged version is profusely illustrated with photos, charts and images, enabling easy design and fitting of breathers. It also details the fitting of older Bunn Breather Kits. It is plainly written for the everyday rider, as well as for racers, tuners, mechanics and engineers. Rex includes chapters on making and installing your own crankcase breather, as well as sharing secrets of the breathers art. This book plainly shows how to improve crankcase breathing, reduce power losses and cut oil leaks on nearly any four-stroke motorcycle. The book includes forty selected case studies from the thousands on the authors files: from Ariel to Moto Guzzi, from Norton to Yamaha. Much original research into crankcase ventilation is published, along with a review of the latest advances in race engineering. Rex is the designer of the Bunn Breather Kits used around the world, and now shares his research findings showing how to conserve and develop our motorcycle engines

Experiences of Death: An Anthropological Account, Easy Sandwich Cookbook: 50 Amazingly Delicious Sandwich Recipes, Mastering Redis, Psychology in Modules, Captain America White #1 Baltimore Diamond Retailer Summit RRP Sketch Variant, Becoming Forever (Waking Forever) (Volume 3), Sergeant Major, U.S. Marines: The Biography of Sergeant Major Maurice J. Jacques, USMC,
