

Thomas Taylor was one of the outstanding translators of the philosophical writings of the Greeks and Romans, and also published several original works on philosophy and mathematics. Many of his important contributions in these fields have been long out-of-print and are extremely difficult to obtain, having been issued in very small editions. Most of Taylor's translations have an archaic elegance which preserves the spirit of the older authors in a manner not evident in more recent translations. Taylor also added notes and commentaries which give valuable insight into the essential meaning often obscure in the actual text. Contents include: Collection of the Chaldean Oracles (1817); A Dissertation on the Eleusinian and Bacchic Mysteries (1790); A History of the Restoration of the Platonic Theology (1788); and Platonic Demonstration of the Immortality of the Soul (1820). See the many other works by this author available from Kessinger Publishing.

In a first person narrative Philipp Vandenberg recounts his travels to the sites of the fifteen ancient oracles, and explores the history of archaeological research. The Oracle of Mysteries sticks to the Traditional and powerful Lenormand imagery, I've just modernize it and remove the shadow of it. In the deck you will notice. By first party (made by Paizo) RAW, no there isn't. Extra Revelation requires that you have the prerequisites for the extra revelation you're. Each oracle must choose from among the following mysteries. Unless otherwise noted, the DC to save against these revelations is equal to $10 + 1/2$ the oracle's.
