

People who live above the line know they are essentially in control of their lives. They recognize there will be events outside of their control. They also recognize by increasing their capacity to participate and be present in life they can increase the odds in their favor. By doing so they put into motion forces that will work to their advantage and even minimize the effects of those seeming unfortunate experiences. The objective of this book is to empower people to get above the line and if you are already above, to stay above. I wrote the novel, *Evansing - Heart of the Irish Kingdom* which will be used to illustrate the principles necessary for you to coach yourself above the line. As you start to apply these principles you will increasingly know life to be unlimited and that anything is possible.
